

Transition from Pre-K to Kindergarten 21/22

- Preschool staff start talking about going to kindergarten with our students. What it will look like, feels like, and how it is for children to go to kindergarten.
- Kindergarten teachers come down and visit the students in their classroom before they visit upstairs.
- In the spring, Pre-K students will start eating in the lunchroom and learning kindergarten lunch routines.
- Twice in the spring we take our Pre-K students to both kindergarten classrooms to spend time getting to know the teacher and the classroom. They play games and get a tour of the first floor.
- When the school holds the open enrollment period we include Pre K- 12. We hold open enrollment during the school days, one evening as well as one Saturday.
